

NET STREAM TV - TELEVISIÓN POR INTERNET

C/ Pujada del Castell, 36 a
08241 MANRESA
T.629 87 23 06

Hi

As in recent years, Net Stream tv and MIC Football have reached an agreement to offer you the possibility of broadcasting the MIC 2025 matches that your teams play online.

The cost of the broadcast with a camera is €300.00 per match, which can be seen through the ESPORT+ platform (<https://www.esportplus.tv/>) in HD 1280x720 format. Each viewer will have to register on the platform to be able to watch the matches, this will have to be done only once.

The match will also be delivered in FullHD 1920x1080 video file through wetransfer once the tournament is over.

The broadcast will have the following informative graphics:

- Name and crest of the teams at the start of the match.
- Name of all the players of each team at the start of the match.
- Scoreboard with the name of the teams, time and result throughout the match.
- Match statistics at the end of the match provided by MICFootball.

We hope that the proposal is of interest to you and that you contact us as soon as possible, as there are many teams and many fields, which makes the infrastructure to cover all the requested matches very complex and we need time to be able to make a good plan and give you a good service.

Sincerely

Salvi Huix
Head of Net Stream Tv

Contract conditions.

The first 4 matches of the championship will be paid for in advance, via Bizum, Wise or in cash before the start of the tournament, in which case we will go to your hotel at the time you indicate to us.

The rest of the contracted matches will be paid for in the manner already agreed before the start of each match. If the payment is made in cash, it will be paid to our camera operator before the start of the match.

We guarantee the broadcast of all the matches contracted before the start of the Tournament, except in the case of force majeure, something extremely rare.

You can contract all the matches, the qualifying phase or isolated matches. If you contract all the matches you are going to play, we guarantee their broadcast. If you contract more matches during the tournament, the broadcast of them will depend on our availability.

Before the start of the tournament you will receive an email stating what type of contract you are making, as well as the time, the opponent and the field where the matches on Wednesday and Thursday will be played and also the amount to be paid in advance. You will need to reply to this email confirming the reservation and that all the details are correct.

For Friday, Saturday and Sunday matches, when the organization posts the match times on the website, we will send you a WhatsApp with the match details. If you have this information before us, you can send it to us. If after this there is any change to the pitch or time by the organization, you will have to notify us.

All communications will be via email or WhatsApp.

This year, 10 pitches will have an automatic camera that will broadcast all the matches played there free of charge. If any of your matches are played on one of these pitches, we will not be able to broadcast the match, therefore, we will not charge you for that match.

We do not have this information at the moment, when the match times are released we will have it and we will inform you.
